

Meet UMD Fire Protection Engineering

**Wednesday, October 9, 2024, 10AM-2PM
in the SC400 conference room**

**Drop-in to talk with an academic advisor
30 minute information sessions at 10AM and 12PM**

Join us to learn about the best engineering major you've never heard of! Graduates of UMD's Fire protection engineering B.S. program have a 100% job placement rate in exciting career opportunities in Maryland and around the world.

Fire protection engineers protect people, property, and the environment from fire by preventing fire risk through engineering design. Fire protection engineers work for consulting companies, corporations, government agencies (federal, state, and local), research labs, and more!
